

SIGHTWORKS CLOUD SERVICES - END-USER SYSTEM REQUIREMENTS

SightWorks develops, tests and optimizes the public site pages served from its cloud services platforms for the following desktop and mobile operating system and browser combinations:

Microsoft Windows

Latest version of the operating system and following web browsers:

Chrome

Edge

Firefox

Apple Macintosh

Latest version of the operating system and following web browsers:

Chrome

Firefox

Safari

Mobile Operating Systems and Browsers

Latest version of the operating systems and following web browsers:

Apple iOS - Safari

Google Android - Chrome

Notes:

- Additional OS/browser combinations may work with the system, but they are not officially supported.
- In all cases, Javascript and cookies must be enabled.
- Official support for Internet Explorer - all versions ended on January 1st, 2021
- To manage site contents and user accounts, site administrators must use a current desktop version of Google Chrome on the latest version of Microsoft Windows or Apple Macintosh operating systems.
